A FINE HEAD OF HAIR

Has always been esteemed an essential addition to Personal Beauty, to obtain which is especially recommended

ROWLAND'S MACASSAR OIL, by express authority, patronized by their Royal Highnesses the Princess of Wales and Duke of Sussex, his Excellency the Spanish Ambassador, the Right Hon. the Earl and Countess of Oxford, the Army and Navy, and the majority of the Nobility and Gentry throughout the Kingdom.

This Oil is the most beautiful, pleasant, and efficacious production in the world for eradicating all impurities of the human hair, producing a luxuriant growth on the baldest places, prevents its falling off or turning grey, affords an auxiliary of strength to the roots of the hair, which soon produces an inimitable curl, bestows on the tresses a transcendant and beautiful lustre, renders childrens' hair strong and beautiful, promotes the growth of whiskers, eye-brows, mustachios, &c. preserves the hair after seabathing, travelling by sea or land, violent exercises, &c.; in fine, its pre-eminent virtues have been attested by an immense multitude of witnesses. For further elucidation is inclosed Rowland's Treatise on the Improvement of the Hair, worthy the attention of every family.

The high popularity of this Oil has induced insidious persons to impose on the Public a base and noxious counterfeit, imitating the bills, bottles, &c.; therefore the Proprietors view it an imperious duty to caution the Public not to purchase any without the above Treatise inclosed, and the signature of the Proprietors on the label in red ink, "A Rowlandson and Son," in their own writing.

Sold at 3s. 6d. 10s 6d. and £1. 1s. per bottle; by the Proprietors, Rowland and Son, Kirby-street, Hatton-Garden; and, by their appointment, by Messrs. Hendries, Perfumers to her Majesty, Tichborne-street; Mr. Smyth, 117, New Bond-street; Messrs. KENT.—MOST VALUABLE FREEHOLD, TYTHES, RESIDENCE, AND LAND.
TO BE SOLD BY AUCTION, BY MR. PEYTON.
At Garraway's Coffee-house, 'Change-alley, London, on Friday, January 14, 1814, at Twelve o'clock, in Three Lots,

ALL the RECTORIAL TYTHES arising from the Crops of Corn and Hay growing on upwards of Two Thousand Seven Hundred Acres of most capital Land, in the highest state of cultivation, lying within a ring fence, and forming the principal part of the Parish of NORTHFLEET, together with a comfortable Dwelling-house, Offices, and Gardens, spacious Barns, Yards, and Homestead, and sundry Closes of Land containing in the whole upwards of Twenty Acres, free from all Tythes. Northfleet is most advantageously situated, adjoining the River Thames, one mile from Gravesend, within 20 miles of, and possessing a regular daily water communication with the Metropolis. The Land is for the most part in a state of tillage, and from the nature of the soil, it is highly probable that it will be so continued.

Printed Particulars may be had by applying to Mr. Everest, Leather Bottle, Northfleet; the Bull Inn, Rochester; the King's Head, Canterbury; Mr. Summerfield, Aylesford, near Maidstone; Messrs. Woodcock, Bateman, and Jones, Lincoln's inn; and of Mr. James, New Boswell-court, Lincoln's Inn, London, where, and at the Leather Bottle, Northfleet, a Plan of the Estate may be seen.

ANTI-ATTRITION.

IT is now unequivocally proved that the PATENT ANTI-ATTRITION COMPOSITION is the cheapest and best Thing ever yet discovered for Ships' Bottoms, instead of Copper; to preserve Cables from being rubbed in the Hawseholes, instead of a Flat, Service, or Rounding; the Rigging of Ships from the Weather, and from being chafed, instead of Tar "Parceline, and Service;" for the Slides and Carriages of Guns; to render Leather and Canvas Water-proof; and to prevent the effects of Friction in Steam Engines, Mills, Sugar-Mills, Threshing Mills, (or other Implements of Husbandry generally used by Farmers), Carriages, Coaches, Waggons, Carts, and Machinery of every description. It is also the best Thing to preserve the Blades of Swords, and all kind of Polished Steel Articles, from Rust. It will likewise preserve Iron Hoops, Water Butts, Casks, Tubs, Spouts, Posts, Rails, Gates, Park Paling, and every kind of Wood and Wooden Building from the Weather, Worm, and Dry Rot, either in the East or West Indies, or in any Climate; and it will not only preserve Iron Railways from corroding and wearing out, but also render the draught so light, that one horse will do the work of two.

One priming of the Composition is in some cases equal to one hundred applications of Oil, Tallow, or any other kind of Grease, Paint, or Tar, and the Public save by its use from 300 to 4,000 per cent. exclusive of preventing the wear and tear in Machinery, Wheels, &c. &c. which is a saving of expense more than that of saving nine parts out of ten, and nothing can be so clean in its working, or give so little trouble.

Sold, wholesale and retail, for the Patentees, at No. 40, Charing-Cross, near the Admiralty, London; and, by their appointment at most Ship Chandlers, Printers, Booksellers, Libraries, Stationers, Druggists, Medicine Warehouses, Perfumers, Ironmongers, Cutlers, Coachmakers, Innkeepers, Coach and Waggon-offices, Oil and Colour-shops, Sadlers, and Shopkeepers in the United Kingdom, in boxes, price 2s. 6d.; 5s. 6d.; 10s. 6d.; One Guinea, and Two Guineas each.

The smallest size box contains a quantity sufficient to prime a four wheel carriage four times, with which it will run upwards of six thousand miles, without applying any thing else to the axletrees; and one half guinea box contains a sufficient quantity for a stage-waggon to travel thirty-three thousand miles; and it will work with wood axletrees, or with common boxes and axletrees of any kind.

The most satisfactory proofs of the merits of the Composition may be seen at the Patentees' Office, No. 40, Charing Cross.—Directions are given with each box, which are signed "W. D. Bellamy."

A CERTAIN DISORDER.

THE Value of DR. FREEMAN'S GUTTA SALUTARIS, has been so long proved, that nothing of the present day can bear a competition with it, in all the different stages of a certain disease; which it effectually cures and eradicates from the habit, without exciting the painful feelings and exposure that attends salivation—without debilitating the constitution in any degree, or even requiring confinement from business or restriction of diet. The radical virtues of these inestimable Drops have proved their claim to public approbation for more than 30 years. In all the debility of both sexes they prove a never-failing restorative—whether the debility is produced by too free use of mercury, by illicit pleasures, or the effects of a warm climate. To travellers and those going abroad, they cannot be recommended too strongly, as they will receive a safe, speedy, and complete cure, in all old stubborn gleets, and every weakness that affects the bladder and organs of urine. By its efficacy many women have become mothers, who for many years had been deprived of that happiness.

Sold wholesale and retail, at Mr. Butler's, No. 4, Cheapside, the corner of St. Paul's Church-yard; and retail, by Belam and Sharp, Portsmouth; Hall & Johnson, Gosport; Allnutt, Weston, Mallory, and Jones, Portsea; Trewman, Exeter; Cookworthy, Glenville, Gilbert, and Hoxland, Plymouth; Newbury, Dublin; Baxter and Macdonald, Glasgow; Smith, Manderson, Scott, and Reaburn, Edinburgh; Crutwell, Bath; Ross & Peck, Hull; White, Brighton; Roberts, Seldon, and Ruff, Cheltenham; Gregson and Lillinge, Edwards and Penny, Liverpool; Stains and Lynch, Manchester; Bowen, Norwich; Knott and Lloyd, Birmingham; Gregory, Brighton; and most Medicine Venders, in bottles, at 2s. 9d. 4s. 6d. and 22s.
